If such a spot were really known, Dame Peace might claim it as her own, And in it she might fix her throne, Forever and forever; There like a queen, might reign and live, While every one would soon forgive The little slights they might receive, And be offended never.

'Tis mischief-makers that remove Far from our hearts the warmth of love, And lead us all to disapprove What gives another pleasure. They seem to take one's part-but when The ve heard our cares, unkindly then They soon retail them all again, Mixed with their poisonous measure.

And then they've such a cunning way Of telling illmeant ta es; they say, "Don't mention what I've said, I pray, I would not tell ano her;" Straight to your neighbor's house they go, Narrating everything they know; And break the peace of high and low, Wife, husband, friend and brother.

O, that the mischief making crew Were all reduced to one or two, And they were painted red or b ue, That every one might know them; Then would our villagers forget To rage and quarrel, fume and fret, Or fall into an angry pet, With things so much below them.

For 'tis a sad degrading part, To make another's bosom smart, And plant a dagger in the heart We ought to love and cherish. Then let us everymore be found In quietness with all around, While friendship, joy and peace abound, And angry feelings perish,

For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has any thing won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to care the værious affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cared, and the patient rectured to send hould by the Chemy Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach thom, under the Cherry Pectonal they subside and disappear.

Singers and Public Speakers find great protection from it. and Consumption.

Asthma is always relieved and often wholly sured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known, that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatic As its name implies, it does Core, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous in excellent order, handsome, and well paint substance whatever, it in nowice injures any pared. with a large number of rooms above and substance whatever, it is nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical-cures effected in obstinate cases, and where other remedies had wholly failed.
